Community Playthings

Children come first

Who we are

Because we design and create furniture with our own children in mind, quality and beauty come naturally. Our products are crafted by men and women who belong to a Christian community and believe children deserve the best.

The exceptional work you do alongside our high-quality equipment creates an environment where childhood comes alive.

Quality craftsmanship & design

Children need play equipment that is safe, simple, natural and beautiful. Our furniture is modular and adaptable, enabling your environment to be changed and developed.

All products are made in our workshops in East Sussex and Kent; their solid wood construction and robust joinery make for furniture and play equipment that lasts decades.

Input from educators and leaders like you has guided our product design for over 70 years. You'll find our products give staff an environment that is an extremely effective "third teacher."

Customer service

From product support to ordering and delivery, you have a UK-based account manager ready to answer any question you may have. Be sure to ask about our complimentary room layout service.

We provide free 2-week delivery anywhere in the UK, and all products come with a 15-year warranty. Our products come fully assembled and ready to use.

Safety & sustainability

We believe equipment for children should be durable and made in a way that preserves the world they will inherit. Crafted with children's health and safety as top priority, our products are free of any elements that are harmful for children or the environment. The wood we use is chain-of-custody certified and sustainably grown.

Outlast

The great outdoors is the ultimate playground for learning and growth. Extending your curriculum outside connects children with the natural environment on a daily basis. Outlast products are weatherproof, extremely durable, and aesthetically pleasing. They will transform your outdoor space, adding new possibilities and dimensions to your curriculum.

Weatherproof

Is it possible? Yes! Outlast products are made of acetylated wood, which has been proven to last for several decades in direct contact with the ground. Outlast will not warp, shrink, twist, or rot and does not need covered storage, whatever the weather.

Non-toxic

Acetylation is a treatment process that modifies wood at the molecular level, rendering it rot resistant without using any toxic substances. It's child-safe and environmentally friendly. "Safe enough to eat" is no exaggeration.

Durable

To complement the weatherproof wood, Outlast products are fastened with stainless steel hardware and UV-resistant rubber. Outlast is backed by our standard 15-year warranty.

The mark of responsible forestry
FSC® C006924

Supporting sustainable forestry

Outlast is made with wood from well-managed, FSC® certified forests and other controlled sources.

Ultimate play value

Loose parts empower creativity and offer unlimited opportunities for problem solving and cooperative play, rain or shine.

Easy care

Mud scrubs off with water and any mild detergent. Don't worry if your products eventually weather to a silvery grey – this is a natural process for acetylated wood.

Child-friendly blocks are rugged, with no sharp edges or toxins. The child-sized handholds make carrying easy.

Blocks and ramps are compatible. Their innovative interlocking feature facilitates the creation of sturdy structures on uneven ground.

Outlast blocks are robust and develop gross motor skills.

Excellent play value. There's nothing like loose parts to encourage constructive play.

Interlocking blocks and planks make it possible to build and play on uneven ground.

Outlast block sets

ECERS 8: 7.2, 7.1, 5.2, 5.1

Outlast encourages imaginative play, child-directed discovery and learning in the great outdoors. Interlocking blocks and planks form the basis of this innovative constructive play system.

Reinforced with UV-resistant rubber corners and stainless steel hardware, Outlast blocks earn their 15-year warranty.

Nursery classic set with storage **W389**
Includes Outlast storage unit with 27 blocks, 27 planks, 6 steering wheels and 4 ramps

Outlast ramps allow children to explore the basic principles of physics the best way – through play!

UV-resistant bumpers reduce impact when blocks are dropped. Stainless steel hardware throughout.

Wide wheel base and 28 cm all-terrain wheels make this the sturdiest wheelbarrow around.

Perfect proportions: The Wheelbarrow bed is designed to hold an Outlast crate.

Add a Flow pan to combine block play with water play for the ultimate outdoor constructive play experience.

Build a mud kitchen with the modular Outlast crates, blocks and planks. See page 13 for crates.

Outlast blocks & wheelbarrow

ECERS 8: 7.2, 7.1, 5.2, 5.1

Made of acetylated wood, Outlast items are rugged and exceptionally durable. The entire system is modular: crates share outside dimensions with blocks so they can be incorporated into block structures.

Outlast storage

ECERS 8: 7.2, 7.1, 5.2, 5.1, 7:7.3

To help children keep the outdoor area tidy, the Storage unit neatly accommodates Outlast blocks and crates, and other outdoor toys. The waterproof roof protects resources, while spaces between floor slats provide ventilation and allow sand to drop out. Hose it out and the water drains.

The Outlast storage bench provides teacher seating, and fits two crates that neatly hold outdoor toys. Weatherproof wood and durable design provide year-round outdoor use in your garden or covered play area.

Outlast cascade play centre double (W445)

The child-friendly plug in the clear Flow pan allows children to freely experiment with water flow.

Built to last

There's no exposed end grain to split or splinter. Thick, curved legs provide a stable base.

Convenient storage

Two sizes of durable crates keep everything organised. The slatted shelves allow sand and water to run through.

Outlast flow pan fits securely onto Outlast streambed or Water play tables.

Streambed trays remove easily for clean-up.

Outlast cascade

ECERS 23: 7.1, 5.1 ITERS 21: 7.2, 5.3

Running water has always fascinated children, and the Outlast cascade is the perfect way to safely incorporate it into your outdoor play area. Experience real-life erosion, flood control and experimentation with natural loose parts.

Be warned: these products invite exploration and things will get messy. But don't worry! Built of weatherproof acetylated wood, they will withstand years of serious play.

Weatherproof wood? See p.7 to find out more.

The water is recycled the old-fashioned way: by hand! Bucket brigades build cooperation, team work and communication skills.

A calm and organised room helps educators focus on positive interactions with children. Display cupboards allow teachers to easily access storage without leaving the room, and the lockable doors are ideal for safely storing medication or report records. The central display area is perfect for learning provocations, with additional storage below for children's resources. Display cupboards transform cluttered, chaotic spaces into organised, purposeful environments that enhance the well-being of both children and staff.

Arrives in two fully assembled units. Stack the units and tighten the pre-installed screws using the tool provided. The cupboard must be placed against a wall and securely fixed to that wall.

Maximise on classroom storage space, cut down on visual clutter. Teacher can access storage without leaving the room.

Storage cupboards

ECERS 1: 7.3 ITERS 3: 7.1

Storage cupboards are versatile and efficient, and maximise your space. Select the Storage cupboard that best meets your nursery or classroom needs: open shelving for display purposes, or doors for out-of-sight, lockable storage. Base units come with fixed or adjustable shelves, tote storage options, or adjustable shelves with doors. Multiple storage options enable teachers to access materials without leaving the room.

Arrives in two fully assembled units. Stack the units and tighten the pre-installed screws using the tool provided. The cupboard must be placed against a wall and securely fixed to that wall.

Cloakroom furniture

Our space-saving cubbies will transform your entry into a welcoming, clutter-free zone. A well-designed cloakroom creates a tidy, inviting area that gives children a sense of ownership.

Wall-mounted coat storage

Wall-mounted storage is the most compact cloakroom solution, and ideal for children of all ages. Find the right combination of shelves, cubbies and benches for your area. See page 49.

Free-standing coat storage

If wall fixing isn't an option, these are the solution. Free-standing units can also be placed against the wall, or back to back as an island. See page 51.

Mobile coat storage

Cloakroom on wheels: roll out storage with a place for everything. See pages 51–53.

Welly storage

Clean and tidy storage for muddy boots. See page 53.

Extra clothing, PE kit, or bike helmets stow neatly in Deep totes.

Labels are simple for teachers to update, and there's room for a photo too.

Wall cubbies 8 (A314)

Clear pockets hold parent-teacher communication or artwork in a safe space.

Easy to clean
Water or dirt falls through plastic grates in benches. Slide a broom or mop underneath to clear it away.

Low bench (A307)

This Wall-mounted storage shelf adds extra space above the cubbies – exactly where teachers and parents find it most useful.

Promote independence with child-accessible cubbies and hooks. Personalise lockers with a name and photo.

Coat storage unit 6 (A326) x2

Clear pockets hold parent-teacher communication or artwork in a safe space.

Labels are simple for teachers to update, and there's room for a photo too.

Easy to clean

Water or dirt falls through plastic grates at the bottom. Slide a broom or mop underneath to clear it away.

Gap behind bench allows coats to hang down, leaving space to sit comfortably.

Coat storage trolley (A300)

Castors enable easy movement and can be locked in place.

Children can put away shoes and coats independently in this easy-to-access Coat storage unit.

The Coat storage trolley fits into any available space – roll it out when you need it!

Free-standing units

Use these all-in-one units for storage that children can access easily. Create free standing units by fitting two stabiliser feet to the back.

Place against a wall, back-to-back, or use stabiliser feet A297 (purchased separately). Coat hooks are 93 cm off the floor.

Mobile coat storage

Wheel it to where it's needed and store it where convenient. This trolley is designed to hold 12 children's belongings (6 per side). Used in combination with the Mobile welly storage, you'll have a complete cloakroom on wheels.

Coat pegs are 80 cm off the floor.

Coat storage trolley A300
For 12 children
One coat peg per child

The Coat storage trolley rolls right to the door, keeping the mess out of your room.

Footprints show children where to place their wellies.

Offset shelves save space and drain away water without dripping on other wellies.

Mobile welly storage (A302)

Upright, of course!
Children instantly understand where and how to put their wellies away. No need to touch muddy soles.

Castors enable easy movement and can be locked in place.

Tight on space? The double-sided Mobile welly storage holds 48 pairs of children's wellies for a neatly compact solution.

Encourage independence. Matching their wellies to the footprints turns the chore of tidying away footwear into a puzzle that children can solve all on their own.

Welly storage

ECERS 2: 7.1, 5.1 ITERS 2: 7.1, 5.1

Tidy and welcoming, this space-saving welly storage keeps your setting organised. Children can put away their footwear independently, and there's an individual space for everyone.

The double-sided Mobile welly storage can be rolled right to your entrance. Choose the wall-mounted version to bring order to cramped cloakrooms or narrow corridors.

For indoor use only.

Shelf backs

Shelves with display board backs allow for creativity with optional back covers.

Translucent back shelves let in light and improve supervision.

Open back shelves allow access from both sides, and give a spacious feel.

Shelf back covers

Use a cover on any shelf with a display board back. Choose from three options: the mirror cover is perfect for a toddler's self-discovery phase, the clear cover protects artwork, and the chalkboard cover creates a mini mark-making station. Covers are cleanable, attach with Velcro, and allow you to use both sides of the shelf.

Mobility is built in! Just flip up the trim and roll to a new location.

Flip the trim back down again for a perfectly stationary shelf.

Shelves and panels connect using sturdy posts – no tools needed.

Roomscapes panels

ECERS 4: 5.3 ITERS 4: 7.3, 5.3

Bamboo panels define spaces with warm, natural tones. **Clear panels** enhance interaction and supervision. **Translucent and Rice grass panels** can form cosy spaces while still letting light through. **Display board panels** create a solid divider and provide display – note the cover options! Panel covers attach with Velcro. Combine panels with shelves to creatively divide your room. See page 85 for guidelines.

Roomscapes wave & curved panels

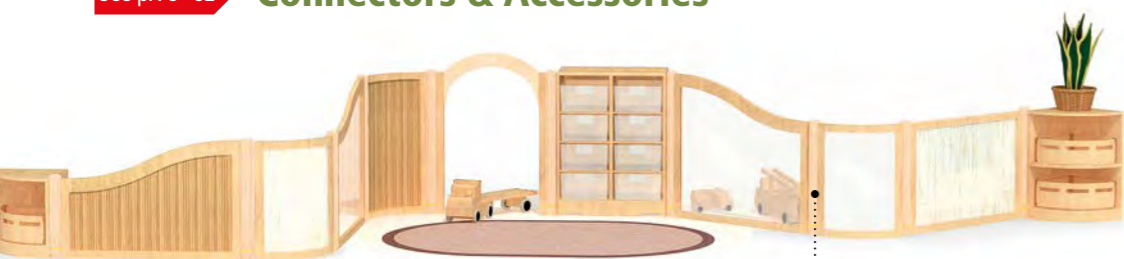

ECERS 4: 5.3, 5.2
ITERS 4: 7.3, 5.3

Wave panels provide an eye-catching way to change the height of your Roomscapes partition. Children naturally gravitate to curves, which are more welcoming than hard corners and right angles. Translucent and Rice grass panels create elegant niches while letting in plenty of light and maintaining easy supervision.

Roomscapes arches

ECERS 14: 7.1; 1: 5.3 ITERS 4: 7.3, 5.3; 3: 7.2, 5.2

Arches form inviting entrances into activity areas, communicating boundaries and pathways. Combine arches with other Roomscapes panels and shelves to create flexible room dividers, and to add grace and style to your room. Consider adding the Window panel to your dramatic play area for a creative, homelike touch.

Roomscapes gates

ECERS 5: 7.4, 5.1
ITERS 2: 7.3; 4:5.3; 20: 5.1

Roomscapes gates allow you to enclose areas of your classroom or secure a hallway easily. Combine the gates with Roomscapes shelving or panels to create safe classroom spaces with controlled access. The double action latch opens easily in adult grasp but resists little fingers. Gate swings in or out, and pushes shut.

Adjustable gates expand to the desired width, spanning a gap of any size from 100 to 172 cm.

Using Roomscapes

A quick guide to planning your Roomscapes order.

1. Measure your space

For a room divider, measure the span to the nearest centimetre. If planning an entire room, you will need a floor plan with a full set of dimensions. This should include doors, windows and built-in features.

2. Know your goals

- How old are your children?
- What about storage?
- How accessible should the area be?

3. Choose your items

See individual pages for dimensions of products.

Shelves double as boundaries and display when used in a divider. See page 59

Panels provide a simple divider in various heights. See page 70

Gates and Entries allow or restrict access to a space. See page 77

4. Put it all together

Roomscapes shelves and panels connect without tools, using sturdy posts.

 <p>Posts connect Roomscapes products. See page 80</p>	 <p>Wall adapters attach posts to a wall. See page 80</p>	 <p>Panel stabilisers support a line of panels. See page 80</p>	 <p>Adjustable panels close odd gaps in a divider. See page 70</p>	 <p>Fillers close the gap between two shelves. See page 80</p>
---	---	---	--	--

Each shelf and panel has couplings on the sides where posts attach.

Posts slide onto the couplings. No tools needed!

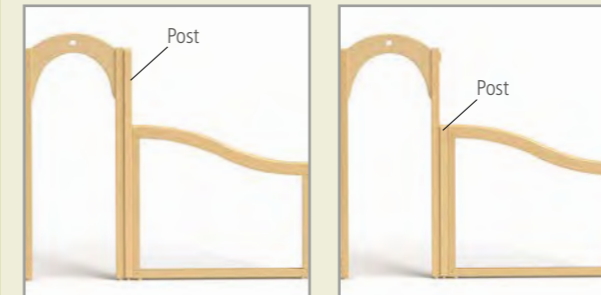

Shelves and panels can connect at any angle.

How to make safe and stable Roomscapes connections

Along with the ability to define your own space comes the responsibility to set up safe configurations. Because of the almost limitless options of the Roomscapes system, common sense is always needed to ensure that your setup is safe. Here are some essential guidelines to follow when connecting your Roomscapes items. Please follow them, as well as any warnings or cautions for specific items throughout this guide.

Posts

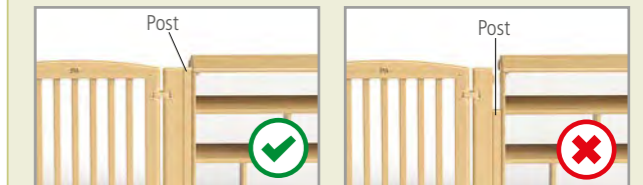

Always match post height to the highest piece it connects.

If you place panels on top of shelves or other panels to make a higher divider, the combined height should not exceed 122 cm.

Roomscapes Gates

Gates need extra support to be stable and safe.

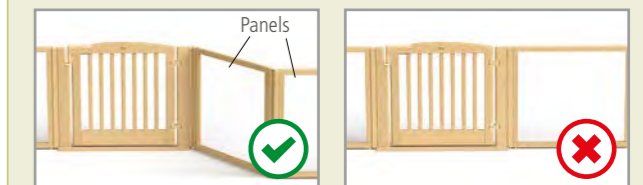

Supporting posts must be at least 81 cm high.

Attached shelves or panels must be at least 61 cm high.

A 61 or 81 cm high Corner shelf connected to a Roomscapes gate or compact gate must also connect to another panel, shelf, or wall adapter.

Panels must connect at an angle to the Gate.*

63 cm long shelves must connect at an angle to the Gate.*

*Exception: the Roomscapes gate and compact gate may connect in a straight line with a panel or 63 cm shelf, but only if the hinge side is connected to a 94 cm shelf (or longer), to a wall, or to angled panels.

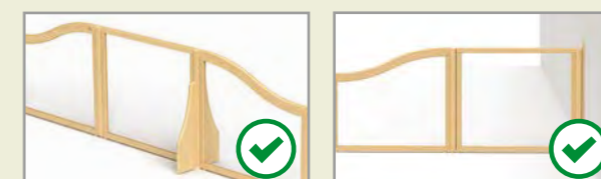

Panels and Arches

Never connect more than two panels in a row without stabilising them in one of the following ways:

Add a shelf.

Create an angle in the line of panels.

Use a pair of Wings (for plastic posts) or a Panel stabiliser of the correct height.

Attach to a wall

- Panels must always be attached at both ends. (See illustrations above.)
- Never exceed 122 cm in height.
- Never end a straight line of panels with a single Corner shelf.
- A 61 or 81 cm high Corner shelf connected to a Teacher arch or Roomscapes entry must also connect to another panel, shelf, or wall adapter.
- DO NOT support 102 or 122 cm high panels (the tallest) with 41 cm high shelves (the lowest).
- A 41 cm shelf with a panel stacked on top must be supported by other shelves or panels.
- Do not use two corner shelves to stabilise a straight line of panels.

Nursery sofa (J935)

Comfortable
15 cm thick cushions retain shape for years.

Cleanable upholstery is tough, waterproof, and non-staining.

Baby-safe
Rounded corners and medical-grade silicone fabric ensure children's safety.

Nursery sofa

ECERS 2: 7.2, 5.4 ITERS 2:7.1, 5.3

Safe, durable and stylishly comfortable, this snuggler sofa is a welcome addition to any childcare setting. It's an inviting retreat for co-regulation, and a secure spot where staff can connect with key children. Our sofa provides a warm, homelike space for feeding a baby, reading a story, or just having a cosy chat.

With all its comfort, it's practical too! The cushions detach for cleaning, and soapy water gets rid of pencil, ink, and even permanent marker from the upholstery. Two staff can move this sturdy sofa to wherever it's needed next.

Nursery sofa J935

The Nursery sofa invites positive interaction with children during a busy day.

A Nursery sofa creates an inviting space that provides quiet, security and the feel of home, whether in the baby area or a reception classroom.

Create a welcoming area for visitors to your setting, or for parents during the settling-in period.

Comfortably seats an adult and two children. . .

or more, depending on the activity!

This sofa is especially for grown-ups! You can find **soft seating for children on page 207.**

Coracle and Rest mat

ECERS 2: 7.1 ITERS 8: 7.1, 5.1; 2: 7.1, 5.1, 5.3

The Dream Coracle spares carers' backs as they need not lift or bend, but can interact comfortably on the child's level. Its low edge allows the child to climb in and out independently, and its high edge provides a feeling of security. Weighing under 6 kg, Coracles are easy to lift and stack.

Rest mats provide safe comfort for children and convenience for teachers. They are lightweight, durable, and easy to clean. The brown and green colouring helps you remember which side touches the floor.

Sheets and blankets are machine washable.

Coracles enable our children to be more independent, thus we are better able to respond to their needs. Children's contentment has improved and staff can spend more time supporting play and development.

Cots

ITERS 2: 7.1

A reliable cot is essential for your babies' comfort and safety. Clear plastic ends enable supervision and allow cots to be placed end-to-end without compromising hygiene. The cot can safely accommodate newborns or older babies. No tools are needed to change mattress height. Practitioners love the BackSafe cot with its unique telescoping slats, lowering the side to reduce extra bending and lifting.

Changing tables

ITERS 2: 7.1; 9: 5.3

Each moment of caring for a child is a potential learning opportunity. Every day, individualised routines such as nappy changing offer valuable chances for teacher-child interaction. A well-organised, safe, and sanitary changing station makes the experience relaxed and comfortable for both child and caregiver.

Our Changing table and Wall-mounted shelf put everything you need within reach. Retractable steps and easy-to-clean surfaces provide maximum staff support.

Baby shelf

ITERS 2: 5.3

Designed especially for babies learning to walk, the Baby shelf's solid wood construction provides stability for cruising children and sturdy seating for their carers. Mirrors and peepholes in the end panels invite play and discovery. Placed on its side, the Baby shelf becomes a boat any child is delighted to play in.

Baby shelf **F611**

Easy grip lip surrounds the top, giving a handhold for babies and preventing toys from rolling off.

Carpeted top surface is soft on baby's hands.

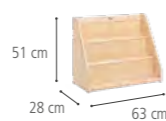

End mirrors with holes are for peeking through.

Toddler book display

ITERS 14: 7.1, 5.2

It's never too early to instil a love of books in children. With its clear front panels and low design, the Toddler book display is perfect for your littlest readers. Join two shelves back-to-back for a sturdy literacy island. It's quick and easy with the built-in connectors on the back of each unit. No tools needed.

For ages 12 to 36 months

Exmoor (C993)

ToddleBox connectors ensure security, stability, and easy reconfiguration.

Smooth, rounded handholds aid in easy reconfiguration.

Give interest and texture to flat floor space with a ToddleBox stage set. The added dimension of a raised surface opens up more possibilities for toddlers' play.

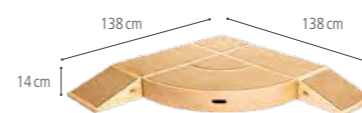

Children learn by moving. Repeated motions like climbing in and out of ToddleBoxes are opportunities to develop problem-solving and refine motor skills.

ToddleBoxes

ITERS 16: 7.3, 5.3, 5.4; 30: 7.2, 5.1, 5.3

Seating and table height guidelines

Determine the best seating for your setting according to our recommendations below.

First, look for the age of children you provide for on the chart, then select the corresponding seating option most appropriate for this age-group. Be sure to consider your unique mix of children, as well as the activities the seating will support.

Woodcrest chairs and Stacking stools have a size mark under the seat. Match this number to the corresponding number on the table legs to get the correct seat to table height.

Activity tray (D416) and Activity tray-table (D414)

Suitably sized for collaborative play.

Switch seamlessly between sensory activities and academic tasks.

Table top has a latch that clips on.

To adjust the table height, just push the yellow ring down and slide the leg in or out

Tray lifts out for easy cleaning, and fits through standard door frames so you can get to the sink!

Height-adjustable and accessible for all. Remove the legs for a floor tray option, or compact storage.

Ready for desk work? Securing the table top over your loose parts keeps everything neat and tidy.

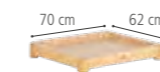

The table top fits neatly into the Sand and water storage shelf.

Activity tray-tables

ECERS 1:7.2, 3:5.4, 34:7.2 ITERS 1:7.2, 3:5.3, 20:5.4

It looks like a classroom desk, but offers unparalleled functionality, including both sitting and standing collaborative play options. Children with SEND gain access to the complete curriculum, transitioning effortlessly between sensory play and desk-based activities. The sturdy table top clips on tightly, keeping loose parts contained. The inset tray is removable, giving more play options and an easy clean. This one-stop shop will accrue thousands of hours of inspired learning.

Trays are 4 cm deep.

Seating

Looking at seating options for your classroom? Sitting surfaces need to be appropriate for the age of the child and the activities they support. We offer a wide range of seating options for both children and teachers. Choose the most comfortable, functional seating for your classroom or nursery setting.

Stacking stools

Children need every opportunity to move and build core strength; Stacking stools encourage this movement and allow for more dynamic posture. Stacking stools are versatile for seating and play. Available in six sizes. See page 155.

Woodcrest chairs

Robust, beautiful seating for preschool children to adults. Available in seven sizes. Don't miss the Teacher low chair – it's the one with a handhold! See page 153.

Childshape chairs

Solid chairs with armrests, designed for twos and threes who need extra support. Available in two sizes. See page 157.

Mealtime chairs

Babies and toddlers need supportive, cleanable seating as they master their eating skills. Available in two sizes, with optional feeding tray. See page 119.

Me-do-it chairs

Low and wide-based, Me-do-its are just right for toddlers. Available in two sizes. See page 117.

More seating

See Nursery sofa on page 109, Child's sofa and armchair on page 207, and Outlast benches and seats on pages 25–27.

43 cm Woodcrest chair (J716)

Shaped for comfort
The backrest "circle" eliminates pressure on the lower spine. Edges and corners are rounded.

Stable seating
The wide-based design makes the chair stable without having the legs protrude.

Children sit comfortably on this contoured chair. The waterfall front encourages circulation.

Rubber tips are non-marking, non-slip, and help keep the noise down.

Light enough for children to carry.

Stackable: Five chairs high.

Woodcrest chairs

ECERS 2: 7.1, 5.2, 5.1 ITERS 2: 7.4, 7.2

The lightweight Woodcrest chairs are made of formed beech. The graceful one-piece design is easy to clean, with no joints to work loose. Woodcrest chairs are ultra-stable and sturdy. They stack up to five chairs high.

31 cm Stacking stool (J125)

Lightweight sturdy build for decades of use.

Large contoured seat, comfortable for both children and adults.

Easy to clean.
Inset joinery ensures that there are no hidden crevices to trap mess.

Rubber tips are non-marking, non-slip and help keep the noise down.

Ergonomic design allows freedom of movement and comfortable seating.

Story time! Teachers can get right down on the child's level.

All six sizes can stack together. Rubber bumps on underside protect the tops from scuffs and scratches.

Stacking stools

ECERS 2: 7.1, 5.2, 5.1 ITERS 2: 7.4, 7.2, 7.1

Stacking stools provide durable, versatile seating for children. Stools allow for more dynamic posture; because of the flat seat, children can find the seating position that is most comfortable for them. Stacking stools accommodate the size range of an age group better than chairs, and stack easily for compact storage. Most appropriate for ages three and up.

Stacking stools accommodate individual seating preferences and provide opportunities for children to build core strength through movement.

Large double table, tan (A694)

Built-in ledge puts a play surface right at the children's finger tips.

The bridge between pans offers even more play surface.

To move table, simply lift one end and roll. It's immediately stationary when set down.

The large drain allows almost any material through. It's easy to clean, and the tethered plug won't get lost!

This mobile Storage shelf connects to Roomscapes and provides organised storage. There are compartments for sorting and a slot for pan lids.

Large tables provide space for collaborative play. Watch those young scientists investigate as they mix, count and measure.

Sand and water play is wet or dry, always messy and most importantly, fun! Use the Large double table to separate materials and encourage schematic play. The Large single table is perfect for larger volumes of water or other materials.

Use the purpose-built Storage shelf for wet or sandy accessories and loose parts. Water drains through the grates and onto the plastic tray below. Just pull it out for a quick clean.

All items come fully assembled. For ages 15 months–6 years.

Float, sink or build – at the Large single table, there's plenty of room to experiment!

This Small table is the compact, space-efficient option to bring sand and water play into your setting when floor space is limited. It's easy to move, drain and clean.

Sand and water tables adjust to three heights: low for 15–24 months, medium for 2–3 years, and high for 3–6 years.

The Storage shelf's angled, child-height compartments invite children to sort and select toys; even babies can help themselves. The designated slot at the back holds two Sand and water table lids.

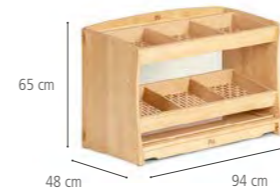

For ages 15 months–6 years. All items come fully assembled.

Paper slots are slanted so they can hold a wide range of sizes, up to A2. Note the wider, deeper slot for paper rolls or cardboard.

Sturdy locking castors ensure easy transport.

Five Half totes provide child-sized storage for craft items.

Help yourself trolley

ECERS 20:7.2, 7.1, 5.1 ITERS 17:7.2, 7.1

If you share classroom space with other programmes or simply don't have room for an art centre, consider this creative station on wheels. It can travel wherever it's needed, carrying everything young artists will use. With generous storage space and totes for every possible craft material, this trolley makes up for the three or four pieces of furniture you wish you had room for.

Having the freedom and independence to choose appeals to even the youngest of the children when creating their own masterpieces. Our art trolley with its many compartments enables us to provide a wide and varying range of materials to stimulate many ideas and projects.

Block family

Blocks are teachers, not just toys. Block play offers a vast range of experiences, enriching every area of the curriculum and supporting child development.

For over 100 years educators have been promoting the use of blocks in early childhood classrooms as a powerful learning tool. Because modular blocks are so versatile, they offer endless opportunities for a child's imagination to soar while discovering basic math and science principles, practicing problem-solving techniques and social skills, and building a solid foundation for future education.

Mini unit blocks introduce toddlers to open-ended, constructive play on a scale that fits small hands.

Hollow blocks encourage cooperative play. Block play serves every area of learning and development.

Providing enough blocks, space and time is critical to the quality of children's block play. These Unit block sets contain large numbers of the most useful and popular shapes.

For storage, low open shelves allow the blocks to be sorted by size and shape. Generous space helps children to classify and organize the blocks during clean up. More compact, space-saver storage options are available as well.

Each block set is shown with recommended storage options.

Half school set (G462)

Gently rounded corners give the blocks an appealing, velvet-smooth feel.

Mathematically modular
The length of each block is twice the width, which is twice the thickness.

Village vehicles are the perfect size for a Unit block highway.

Unit blocks

ECERS 22: 7.2, 7.1, 5.2; 4: 7.2 ITERS 19: 7.1; 15: 5.2

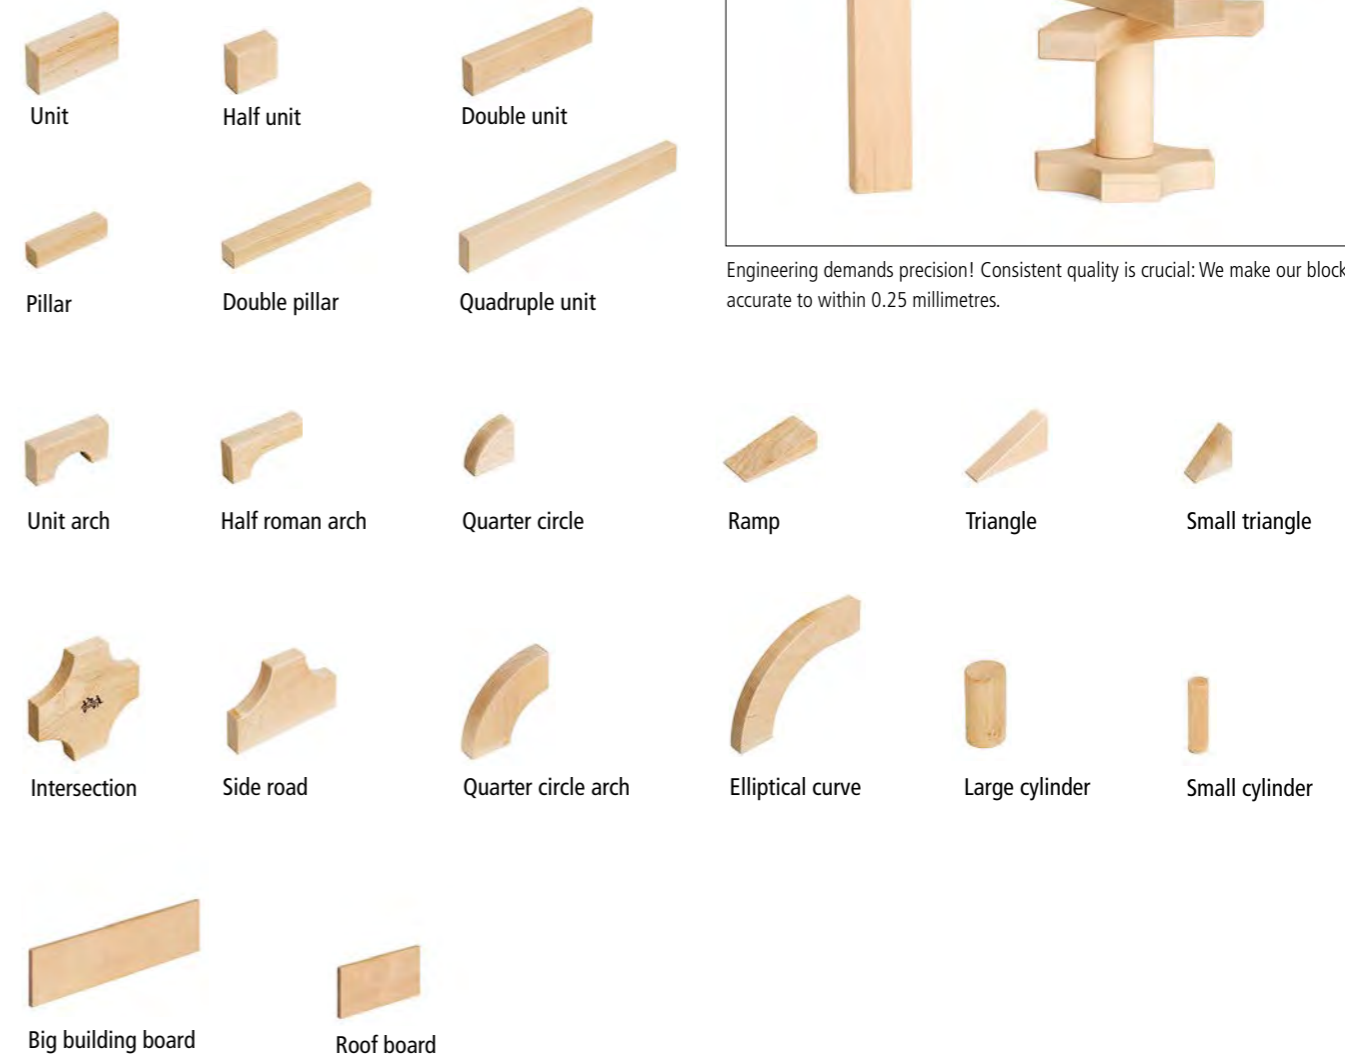

Because of their great potential and versatility as a learning tool, Unit blocks should be standard equipment in all early years classrooms. These blocks are precisely crafted out of solid birch, ensuring decades of building, learning and fun. Dimensions of the Unit block are 140 mm x 70 mm x 35 mm.

To purchase individual shapes, see communityplaythings.co.uk/shapes

For ages 3 and older

Engineering demands precision! Consistent quality is crucial: We make our blocks accurate to within 0.25 millimetres.

Hands-on learning: Block play solidly supports emerging STEM skills.

Teamwork: Block play encourages the development of important language and social skills.

Mini unit blocks

ECERS 19: 5.1; 22: 7.1 ITERS 15: 5.1; 19: 7.1

Mini unit blocks are both delightful for a toddler's small hands and ideal for school-age tabletop play. Children love the natural wood texture and enjoy building intricate structures with these precisely machined blocks.

Mini unit blocks are exactly half the size of our well-known Unit blocks. They are small but safe, meeting the European toy standards' small-parts tests.

Home is where the heart is. This area holds a timeless charm that will enchant little home-bodies, and its significance cannot be overstated. It need not be a corner – create a shared space anywhere in your room where children can gather, share thoughts, express feelings, and belong.

Choose from our preconfigured sets for an easy way to start. These modular units allow for arranging, changing, and adding to your collection over time.

Complete home corner

C555

For ages 3–5.

Everything including the kitchen sink! Make your home corner the family hub, with a kitchen living room style layout.

Enjoy puppet theatre entertainment and popcorn while the washing gets done on the side.

Create a kitchen island. Place three Home corner units against a D372 MultiTable to encourage collaboration and create opportunities for enriched language. For older children, extend the table legs and stack the Home corner units on drawers.

Country kitchen

C535

For ages 3–5.

The heart of the home is where everyone can pitch in and help out. Little ones search the cupboards for a favourite mug, load the washing machine, or defrost the veg while chatting and laughing about the day. It's the perfect place to share exciting announcements and spill secrets.

Sussex kitchen

C537

For ages 2–5. This popular combination of home corner favourites provides many role play opportunities. A shop on High street one day becomes a science laboratory the next, but there's always lots of work getting done. For older children, purchase two additional drawers to raise sink and cooker height.

Kitchenette

C525

For ages 2–5. Cook a five star meal in a mini-kitchen. The two drawer units in this compact kitchen make it adaptable for a wide range of children.

Toddler collection

C530

For ages 1–3. Create a space your toddlers love exploring, with turning dials, shiny mirrors and posting holes. Pinch-free and sturdy, this child-friendly area is a worry-free world of discovery.

Starter home corner

C538

For ages 1–3. Starting with the basic items allows room to grow your collection in the future. (Studio flats are eco-friendly, and you're less likely to forget to turn off the stove burner!)

Grand PlayFrame (V885)

All adjustments are tool-free.

Lightweight:
Change the configuration to vary children's play.

Attach a ladder, slide or bridge at any level.

Children's play is very physical, involving lots of action and testing of their abilities. It's thrilling for a child to realise "Yes, I can do this!"

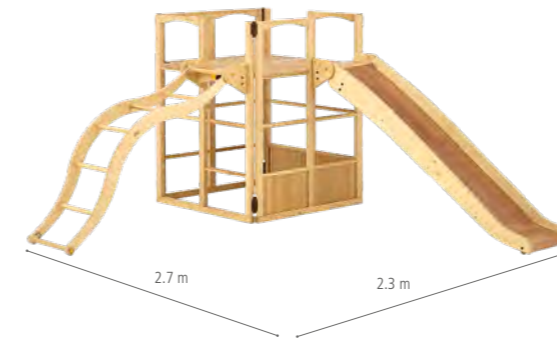

The PlayFrame allows staff to gradually raise the level of challenge as children's skills and confidence grow.

PlayFrame

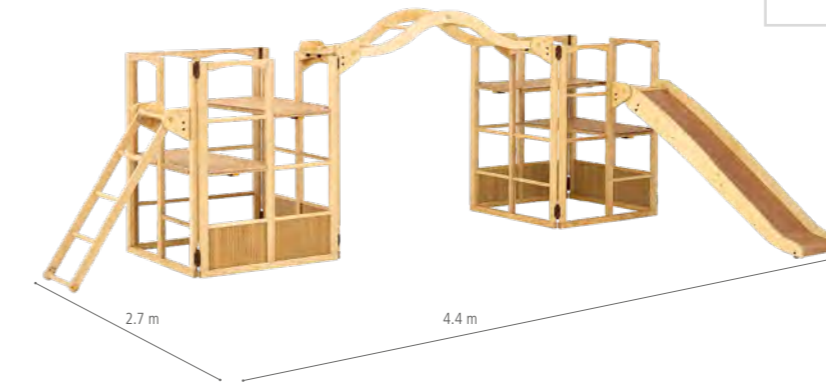

ECERS 8: 7.1, 7.2, 5.2; 24: 7.3;

Children learn best through movement and play. Play builds social skills such as negotiating, discussing plans and sharing resources. The PlayFrame supports a wide variety of active and imaginative play, and provides a fun and developmentally appropriate space for preschool children to develop gross motor skills. The PlayFrame's versatility means children never tire of it, as with a fixed structure.

Our furniture is made with wood from well-managed, FSC® certified forests and other controlled sources. The Forest Stewardship Council® (FSC) is an independent non-profit organisation promoting environmentally appropriate and socially beneficial management of the world's forests.

Clean air outdoors We take measures to safeguard the environment for the benefit of present and future generations. We are certified to ISO 14001, a standard that helps organisations continually improve environmental performance through more efficient use of resources, reduction of waste, and minimisation of other environmental impacts.

Clean air indoors To provide the healthiest environment for children, Community Playthings works with Eurofins to evaluate our products against the most stringent indoor air quality standards in Europe. Our furniture achieved Indoor Air Comfort Gold certification, which incorporates legal requirements and voluntary standards for indoor emissions.

Sustainable With all our products designed and built in-house, Community Playthings offers an industry-leading sustainability profile. We are full members of the Furniture Industry Sustainability Programme (FISP), which promotes best practises to drive social, economic and environmental change.

Local care and craftsmanship

All products are designed and made in our workshops in Kent and East Sussex. We use local suppliers where possible. Goods are shipped directly from our warehouse in Kent, reducing our carbon footprint.

Longer lifespan The ultimate environmental standard? The test of time. Quality products that last for decades don't clog landfills or require a lot of resources to fix or replace. Our durably made furniture and play equipment will be around for generations to come.

Safe for children

Children are particularly vulnerable to harmful chemicals in their environment. We are committed to eliminating all hazardous materials, known or suspected, from our products.

Indoor air quality Children are particularly vulnerable to harmful chemicals in the air. Many of these are volatile organic compounds (VOCs) from paint, varnish, air fresheners, building products, and cleaning agents. These chemicals have been linked to serious long-term health consequences including asthma and allergies. Since our products are PVC-free and use low-emitting finishes, they have achieved Indoor Air Comfort Gold certification, which incorporates legal requirements and voluntary standards for indoor emissions.

Healthy and safe materials Science has discovered chemicals in our everyday environment that may compromise health. Most are created by industrial processes and are used in plastic and other common products. Some, such as Bisphenol A (BPA), disrupt the endocrine system. Tiny amounts can have outsized effects by mimicking hormones.¹ Phthalate plasticisers in polyvinyl chloride (PVC) are linked to modern ills like obesity, diabetes, or early puberty and are particularly ubiquitous in the modern manufactured environment. (Production of PVC itself is hard on the environment.) We are glad to reassure you our products are polycarbonate- and PVC-free. That means no BPA and no phthalates. Our acetylated outdoor products are free of metal compounds, pesticides, and other chemicals commonly used to treat timber. The only by-product of acetylation is acetic acid (vinegar). Our cot mattresses are made of coir (coconut husk fibre) and wool, and are free of all chemical flame retardants, while still passing flammability standards. We will allow no known hazards in our products, but only greener, healthier materials for your children.
